A General

A1 Scope and Purpose of Addendum

- A1.1 The Prequalification Document is that stated in ITA 5.1 (Sub-Clause 5.1 of the Instructions to Applicants) of the Prequalification Document as issued to prospective Applicants.
- A1.2 This Addendum amends the Prequalification Document as defined in Sub-Clause A1.1 above, as previously amended by Addendum No. 1, in accordance with ITA 7.1 (Sub-Clause 7.1 of the Instructions to Applicants) and shall be part of the Prequalification Document pursuant to Sub-Clause 7.2 of the Instructions to Applicants.

A2 Acknowledgement of Receipt of Addendum

- A2.1 Prospective Applicants shall promptly acknowledge receipt of this Addendum by email and telefax to the Employer.

A3 No Extension of Deadline for Submission of Applications

- A3.1 Prospective Applicants will have reasonable time in which to take this Addendum into account in preparing their Applications, and therefore there is no extension of the deadline for submission of Applications.

PACKAGE 2 – WATERWAY, POWERHOUSE AND RELATED EQUIPMENT CLARIFICATIONS (2)

| Sl. No. | Section Chapter/Clause | Heading | Pre-Application Question | Pre-Application Response |
|---------|--|---|--|---|
| 1 | Section III – Qualification Criteria and Requirements | Specific Experience 4.2 (b3) and (3) & 3 (a) Design, manufacturing, supply, installation, testing and commissioning of special 3-phase transformers ^(x) for turbine-generator units for at least two contracts, for which each transformer unit shall have a capacity greater than 75 MVA. | Kindly clarify & confirm that, whether subcontractor for key activity "transformer" can be a subcontractor to "specialist subcontractor for Electro-Mechanical works." | Based on the "One Bid per Bidder" principle, which is to ensure fair competition, a firm and any affiliate that directly or indirectly controls, is controlled by or is under common control with that firm shall be allowed to submit more than one bid. A firm (including its affiliate), if acting in the capacity of a subcontractor in one bid, may participate in other bids only in that capacity. Applicants should note that the response provided to this Question No. 5 in Addendum No. 1 referred to the eligibility restriction on the subcontract arrangements in the contracts which are submitted to demonstrate satisfaction of the required Specific Experience items 4.2(b3)(3) and 4.2(b3)(3a). For the purposes of the preparation and submission of Bids for and execution of this Contract, an entity which is successfully prequalified for the design, supply, installation, testing and commissioning of the special 3-phase power transformers may act as subcontractor to an entity which is successfully prequalified and acting as subcontractor (to the main Contractor) for the design, supply, installation, testing and commissioning of the remainder of the Electromechanical Works. |

| Sl. No. | Section Chapter/Clause | Heading | Pre-Application Question | Pre-Application Response |
|---------|------------------------|---------|---|---|
| 2 | | | Is there any restrictions/benefits related to JICA funding (for example, tax exemptions)? Is there any benefit for a Japanese contractor in view of the above? | All forms of taxes will be exempted for Japanese firms as long as they are prime contractors. |
